Information required to correctly Size the Sampler

Product Characteristics

Product Name(s)
Bulk Density (loose) Kg/m3
Bulk Density (packed) Kg/m3
Average Particle Size micron
Moisture Content %
Hygroscopic
Angle of Repose deg
Product Temperature deg C
Flowability
Other Characteristics

Application Requirements

Hopper or Down Pipe
If Hopper
If Downpipe, Dia of Pipe mm
Sample Size gms
Frequency of Sample #/hr
Type of Collection Container
Operation Type
Control Supply Components Solenoid/Position Sensors Required
Control
